**Ultrasun Introduces the i6!**

Ultrasun International again has a very special introduction! A new tanning system is added to our Ultrasun product range: the i6 PowerTower! The Ultrasun team has decided to take this special compact tanning system in production, mainly because of the economic times we are facing today, we would like to offer you a professional tanning product with an even more competitive price and excellent value for money!

Especially for you as our exclusive Ultrasun distributor we are offering the compact i6 stand-up; it is compact, but still with extreme tanning power! This PowerTower has 42 Sunfit XL+ 180W lamps of 190 cm. And it is standard equipped with SmartControl, SmartCooler, SmartSpeakers and of course SmartService. The tanning system can also be equipped with the SmartPaytronic and it can be produced as 0.3 W/m<sup>2</sup> tanning device for the European market! The i6 is available in three amazing colours: XtremeOrange Metallic, RoyalBlue Metallic and in SunnySilver Metallic. Since this i6 is a compact tanning system, it is a perfect machine to be placed in fitness studio's, beauty shops and hairdressing salons. Changing cubicles are available for the i6 as well!

Technical details of the Ultrasun i6:

- Lamps: 42 x Sunfit XL+ 180W 190 cm
- Features: SmartCooler, SmartControl, SmartSpeakers, SmartService
- Options: SmartPaytronic, Changing Cubicle
- Dimensions: 128 x 119 x 227 cm
- Colour Options: XtremeOrange Metallic, RoyalBlue Metallic, SunnySilver Metallic

As you probably have noticed, the new i6 almost has the same specifications as the Ultrasun i7, however, the i6 PowerTower has a retail price of only € 6.595,- That is an impeccable tanning result at an extremely affordable price! For more information about the newly introduced Ultrasun i6 stand-up you can contact Tim or Michael of our Ultrasun sales department!

**Q5 and Q15 now available in Vivid Violet Metallic!**

Since the Ultrasun tanning systems have become available in Vivid Violet Metallic, this new colour has proven to be very popular for our professional Ultrasun tanning systems! So it is at last that we can announce that we will introduce the Q5 and the Q15 in this lively colour as well! Both these two machines will be available in VVM from the 1<sup>st</sup> of June 2010!

So after the Q12, Q20, Q25, i8 and i9 stand-ups and the new SolarChair that are available in VVM, now both the Q5 and the Q15 will be introduced in this amazing colour! The Q5-0 and the Q5-2 with facials can now be ordered in VividViolet and in XtremeOrange Metallic. The luxurious Q15 High Power, Q15 Magic Power and Q15 Magnum Power will from now on be produced in Xtreme Orange Metallic and in Vivid Violet Metallic as well. Except for the new colour, the technical specifications of both these machines will not change.

On the other hand this leads to the RoyalBlue Metallic colour leaving the colour range selection. Still this RBM colour will be available for the Ultrasun Q8 and of course for the newly introduced i6 stand-up! For every distributor who still would like to order the Q5 or Q15 Ultrasun tanning system in RoyalBlue Metallic, please give in your order now, since there are only a few tanning machines in the RoyalBlue Metallic colour available! First come first served!

For more information about the Q5 and Q15 in VividViolet Metallic please contact our Ultrasun sales department.

**Q8 in IceBlue Metallic!**

A third colour has been added to the colour range of the Ultrasun Q8 professional tanning system: IceBlue Metallic! So except for XtremeOrange Metallic and RoyalBlue Metallic, this amazing smart tanning system can now be ordered in IBM as well! And with the summer ready to take off, this cool and fresh colour brings you the perfect vibe for experiencing a tanning session!!

The Q8 can already be ordered in the refreshing IceBlue Metallic colour! Just contact our Ultrasun sales department for more info!

**New Ultrasun Pricelist available!**
